1. 生猪存栏不断下降，农业农村部近期出台七项措施稳定生猪生产

简介：针对当前生猪产能下滑、能繁母猪存栏下降的形势，近日，农业农村部印发《关于稳定生猪生产保障市场供给的意见》，提出七项政策措施稳定生产。一要加快落实稳定生猪生产发展的政策措施。要求地方落实好非洲猪瘟强制扑杀补助、生猪调出大县奖励、能繁母猪和育肥猪保险等政策资金，支持生猪养殖场户尽快恢复生产。各省要尽快研究出台对种猪场、地方猪保种场和规模猪场的临时性生产救助补贴政策，切实稳定生猪基础产能。加强与银行业金融机构的合作，为生猪养殖场户申请贷款提供增信支持，有条件的地方可结合财力给予必要的贷款贴息补助。同时，积极争取地方财政支持。二要加强生产和市场监测预警。加快部省政务信息资源整合，推进生猪产业链监管监测信息一体化建设。各省要抓紧完善监测预警工作方案，建立省级财政资金为主、中央财政资金为辅的基层信息采集经费补助机制，保持监测数据稳定性，提高数据质量。加大规模养殖场直联直报平台“掌上牧云”客户端推广力度，加快推进龙头企业、规模养殖场数据直联直报。加大权威数据信息发布力度，促进增养补栏。三要优化疫情处置和调运监管。要求各地按照《非洲猪瘟疫情应急实施方案（2019年）》，严格规范处置新发疫情。充分考虑地理环境、交通运输、建筑布局、饲养管理水平等因素，科学评估风险，精准确定扑杀范围。严格按照检疫规程开展产地检疫，不得无正当理由不出具检疫证明。落实《农业农村部关于规范生猪及生猪产品调运活动的通知》，进一步细化便捷措施，优化程序，保障符合条件的种猪和仔猪调运，支持规模养殖场和屠宰场“点对点”生猪及产品调运，不得层层加码禁运限运。科学划定禁养区，对于超范围划定禁养区、随意扩大禁养限养范围等问题，要限期整改，不能一禁了之。四要深入推进标准化规模养殖。支持养殖场户改善基础设施装备条件，提升养殖场户生物安全水平。落实粪污资源化利用政策，加大对粪污资源化利用机具购置的补贴力度，支持规模猪场建设完善环保设施装备。合理规划、切实保障规模猪场发展的土地供应。继续开展生猪养殖标准化示范创建活动，推动中央、省、市、县四级联创，高标准创建生猪标准化示范场。鼓励和支持有条件的小农户稳步扩大规模，发展规模适度、生产集约、管理先进、效益明显的现代家庭牧场。五要调整优化生猪产业布局。生猪自给率低的销区要积极扩大生猪生产，逐步提高生猪自给率。因环境容量等客观条件限制，确实无法满足自给率要求的省份，要主动对接周边省份，合作建立养殖基地，提升就近保供能力。制定实施非洲猪瘟分区防控方案，加强区域内统筹规划布局，推进联防联控。科学规划屠宰产业布局，按照“集中屠宰、品牌经营、冷链运输，冷鲜上市”的原则，加快推进生猪屠宰标准化示范创建，形成养殖与屠宰相匹配、屠宰与消费相适应的产业布局。六要加强实用技术推广应用。针对不同区域、不同养殖模式，总结推广适合本地区实际的生猪生物安全防护、清洗消毒等实用技术。加大生猪良种推广力度，切实提高母猪繁殖率和仔猪成活率。要加强实用技术培训，特别加大对种猪场和规模猪场的培训力度，切实提高防疫能力。七要强化组织保障。落实“菜篮子”市长负责制，压实生猪市场保供稳价的主体责任，提高生猪生产、市场流通、质量安全监管和调控保障能力。在稳定生猪生产发展的同时，统筹抓好牛羊肉和禽肉等畜产品供给，多渠道满足市场消费。

2 . Study demonstrates the positive impact of methionine on production rates (研究表明蛋氨酸对生产率的积极影响)

简介: The congress took place in Paris, France from February 5-6, bringing together swine production professionals from France and other European countries. More than 450 people participated to the JRP. The conference gathered different players of the swine sector to cover several topics on modern swine industry, nutrition, animal welfare, animal health, genetic and meat quality. Novus, as a leader in animal nutrition and health solutions, presented a study conducted in Spain on 82 commercial farms and a total of 124,000 sows of different genetic lines and farm sizes over two consecutive years. Results shows that farms feeding their sows with organic trace minerals chelated with hydroxy analogue of methionine (MINTREX®), at a dose of 50-10-20 ppm (Zn-Cu-Mn, respectively) have lower sow mortality rate, lower number of stillborn piglets, a greater number of live weaners, and greater longevity, as demonstrated by a lower replacement rate. “The higher bioavailability of MINTREX allows using trace minerals in the feed at lower inclusion rate by completely replacing the inorganic forms, while improving the productivity of the hyperprolific sows on commercial conditions”, said Silvia Peris, head of technical services in Europe and the Middle East for Novus. These technical sessions are essential for Novus to present its latest researches in the high priority areas of the swine industry and to uplift animal performance and producer profitability through its solutions. More information about Novus’s products and other upcoming events can be found at www.novusint.com.

3 . Live-streaming barn tours show consumers modern pig farming (实时流式谷仓观光向消费者展示现代养猪业)

简介: The National Pork Board is collaborating with South Dakota State University (SDSU) to “open the barn doors” and show how pigs are raised. The pork checkoff’s Operation Main Street (OMS) speakers now can include live-streaming video tours of SDSU’s Swine Education & Research Center in Brookings, S.D., in presentations to local civic groups, culinary and pre-veterinary students, dietitians, chefs and others. The state-of-the-art SDSU teaching center features all phases of pig production and provides the latest technology for research on reproductive physiology, nutrition management and sustainability science, according to SDSU professor and swine extension specialist Bob Thaler. “Virtual tours help non-traditional audiences understand today’s pork production,” Thaler said. “Our goal is to demystify how pigs are raised.” Scott Phillips, a Missouri pork producer, said, “This is an excellent example of how the pork industry can leverage resources to demonstrate responsible pig farming through transparency and to build consumer trust.” Phillips serves on the pork checkoff’s Producer & State Services Committee and is also an OMS speaker. OMS

Indiana speaker Dr. Jeff Harker featured a live tour during a recent presentation to the Northeast Chapter of the Indiana Academy of Nutrition & Dietetics. “The live tours show how we follow the We Care ethical principles every day in our barns to raise healthy pigs. The tours engage the audience and generate questions that encourage conversation and learning,” Harker said. SDSU students conduct the live barn tours and work with the OMS speakers during presentations to answer questions. SDSU senior Maddie Hokanson, one of the pork checkoff’s 2017 America’s Pig Farmers of Tomorrow, said the tours underscore how technology is driving continuous improvement in pig farming. “The live tours provide virtual face-to-face communication that show how far we’ve come with barn technology to raise healthier pigs,” Hokanson said. During 2018, OMS and SDSU conducted more than a dozen virtual tours and have a goal of conducting 30-40 this year.

4. 国际猪业论坛-亚洲站成功举办

简介: 3月14日, 由《全球猪业洞察》(原《国际猪业》杂志)、莱伽传媒主办的2019(第二届)国际猪业论坛-亚洲站(IPGF-Asia 2019)在泰国曼谷国际贸易及展览中心举行, 这是国际猪业论坛首次在泰国举行海外分论坛, 与会嘉宾围绕“非洲猪瘟(ASF)对中国及东南亚的影响”主题进行了深入探讨, 并与与会代表就未来猪肉生产及消费趋势等议题进行了互动。

5. 投资9.5亿50万头生猪养殖产业扶贫项目落户靖远

简介: 3月13日, 白银市政府与新希望集团贯彻落实习近平总书记参加十三届全国人大二次会议甘肃代表团审议时的重要讲话精神协商战略合作座谈会暨与靖远县产业扶贫项目签约仪式在白银举行。新华社甘肃分社社长任卫东, 省农发行行长黄奕忠, 市委常委、县委书记郑钰, 副市长吴震, 市委秘书长张清出席座谈会并见证签约仪式, 市委常委、市委宣传部长李隆基主持会议。县委副书记、县长刘力江与新希望集团六和股份有限公司新六养猪事业部总裁周端阳签订了20万头生猪养殖产业扶贫项目合作框架协议和年出栏30万头生猪种养一体化生态产业园区养殖产业项目投资意向协议书。会上, 副市长吴震介绍了我市产业扶贫基本情况, 新希望集团六和股份有限公司新六养猪事业部总裁周端阳介绍企业发展和项目投资有关情况。
